PTE Listening

Fill in the blanks

1. You will hear a recording. Type the missing words in each blank.

Water plays a big role in our communities. As water supplies are stressed by growing populations, climate challenges and greater competition of , the need to leverage innovative technologies and alternative water supplies continues to grow. The challenge for many is matching the of water with its intended use. Many water systems use treated wastewater for irrigation or industrial uses where water does not need to be of drinking water quality. Some water treat wastewater to drinking water standards and store it before using it as a source of drinking water.

a3.mp3
